

When women in STEM are recognized, they are usually women who pre-date photography or film in color. This gives the impression that women only contributed to these fields a long time ago. It's time to highlight women's current contributions!

LAB COATS FOR

STEM WOMEN IN THE 21ST CENTURY

This year the AWIS-PHL Lab Coat Project will display the accomplishments and lives of STEM women in the present day on lab coats.

Create a lab coat for one of the following women in STEM: Patricia Era Bath, Maryam Mirzakhani, Tu Youyou, Jennifer Doudna and Fatima Jackson.

No artistic talents necessary. Collaborations welcomed.

For more information or to volunteer, email Simone Temporal mentoring@awisphl.org
