

## Workshop Your CV/Resume With Experienced Women in Science!

Uncover the following:

- A resume is not a CV, and a CV is not a resume
- Resumes and CVs should be tailored to specific jobs
- You don't need to include everything you've ever done

After an introductory talk by **Ellie Cantor, PhD, MBA**, who spent over 20 years in biopharmaceutical executive search and recruiting, we will break into small working groups depending on your goals (e.g., academia at a research intensive school, teaching, industry, writing, other/non-traditional careers).

Sample resumes and CVs will be available.
