

Putting Social Intelligence to Work for Women in STEM

Janet Lorenz, Founder, & Daryl Nardick, PhD, Senior Principal
[Creative Leadership, LLC](#)

Social intelligence - SI - describes the intra- and interpersonal competencies that help individuals and groups build effective relationships, frame the "right" problem, bring awareness to emotions, and navigate challenging situations. In this 2 hour program you will learn the components and key behaviors of SI, examine data around its effectiveness, and engage in applying SI thinking, practices and choices to real world scenarios that scientists may face in the course of their career.

This event is supported by a grant from [AWIS National](#) and by the [Graduate School of Biomedical Sciences and Professional Studies, Drexel University College of Medicine](#).

Date: Wednesday, October 22, 2014

Driving and Public Transit Directions: <http://www.drexel.edu/about/directions/queen-lane-directions/>

Campus Map: <http://www.drexel.edu/about/directions/queen-lane-map/>

Parking: On-campus parking will be provided in the gated lots to the left or right at the end of the entrance drive. The gates will be up from 5-7:30pm. When exiting, the gate will open automatically. Do not use the visitor's lot (hard right) unless the gates to the other lots are down. A \$5 token will be required to exit the visitor's lot. On-street parking is also available. Enter the building through the main doors in the center of the building.
