

Anti-Racist Research Practices: Use of Conceptual Frameworks and Community Engagement to Improve Applicability of Findings

presented by

Kate E. Wallis, MD, MPH, FAAP

Attending Physician, Division of Developmental and Behavioral Pediatrics, the Children's Hospital of Philadelphia (CHOP) & Assistant Professor of Pediatrics at the University of Pennsylvania's Perelman School of Medicine

The objectives of this talk are to define anti-racist research and researchers, and identify opportunities to incorporate anti-racist practices, especially community engagement and use of conceptual models, into early stages of crafting a research project
